Belkin WeMo Switch home automation system

Belkin's WeMo Switch and its companion app use your home WiFi network to let you turn electronic devices on or off from your iPhone, iPad or iPod touch wherever you are. Easy to set up and use, you can control as many or as few devices as you like. 859 10319 **£39.95**

Belkin WeMo Switch + Motion Home Automation System

Programme a light to turn on when you walk into the house or a fan to turn off when you leave – the WeMo Switch and WeMo Motion Kit turn devices of your choice on or off when movement is detected. The sensor detects motion up to 10ft away and sends a wireless signal to the WeMo Switch. 859 10321 **£79.95**
